

**10<sup>th</sup> International Symposium on Human Factors in Driver Assessment, Training and  
Vehicle Design  
June 24-27, 2019**

**TABLE OF CONTENTS**

	<u>Page</u>
<i>Preface</i> .....	<i>i</i>
<i>Committees</i> .....	<i>ii</i>
<i>Sponsors and Exhibitors</i> .....	<i>v</i>
<i>Acknowledgments</i> .....	<i>vi</i>
<i>Table of Contents</i> .....	<i>vii</i>
<b>In the Context of Whole Trips: New Insights Into Driver Management of Attention and Tasks (2)</b> Linda Angell, Sean Seaman, Rashmi Payyanadan, Wayne Biever ( <i>Touchstone Evaluations, Inc.</i> ), Bobbie Seppelt, Bruce Mehler, Bryan Reimer ( <i>Massachusetts Institute of Technology AgeLab, N.E. University Transportation Center</i> ) .....	1
<b>Mind-Wandering and Driving: Comparing Thought Report and Individual Difference Measures (3)</b> Heather Walker, Lana Trick ( <i>University of Guelph – CANADA</i> ) .....	8
<b>Vehicle Familiarity and Relative Risk of Fatal Crash Involvement (4)</b> Brian C. Tefft, Aaron Benson, William Horrey ( <i>AAA Foundation for Traffic Safety</i> ) .....	15
<b>Recognition of Manual Driving Distraction Through Deep-Learning and Wearable Sensing (5)</b> Li Li, Ziyang Xie, Xu Xu ( <i>North Carolina State University</i> ), Yulan Liang ( <i>Liberty Mutual Insurance</i> ), William Horrey ( <i>AAA Foundation for Traffic Safety</i> ) .....	22
<b>The Relationship between Sensation Seeking and Speed Choice in Road Environments with Different Levels of Risk (6)</b> Tyron Louw, Foroogh Hajiseyedjavadi, Hamish Jamson, Richard Romano, Erwin Boer, Natasha Merat ( <i>University of Leeds – UNITED KINGDOM</i> ) ....	29
<b>Impact of Headlight Glare on Pedestrian Detection with Unilateral Cataract (7)</b> Sailaja Manda, Rachel Castle, Alex D. Hwang, Eli Peli ( <i>Schepens Eye Research Institute, Harvard Medical School</i> ) .....	36
<b>MOVE-IT: Development and Evaluation of Efficient Training Procedures for Elderly Road Users to Support their Driving Competence (8)</b> Stefanie Schoch, Ruth Julier, Ramona Kenntner-Mabiala, Yvonne Kaussner ( <i>Würzburg Institute for Traffic Sciences (WIVW) – GERMANY</i> ) .....	43
<b>Real-Time Effects of Age-Related Cognitive Dysfunction on Driver Vehicle Control (9)</b> Jennifer Merickel, Robin R. High ( <i>University of Nebraska Medical Center</i> ), Jeffrey D. Dawson ( <i>University of Iowa</i> ), Matthew Rizzo ( <i>University of Nebraska Medical Center</i> ) .....	50

<b>The Impact of Crosswalk Design on Driver Performance: Implications for Pedestrian Safety (10)</b> Huizhong Guo, Ning Li, Linda Ng Boyle ( <i>University of Washington</i> ), John K. Lenneman, Tina Sayer ( <i>Toyota Collaborative Safety Research Center</i> ) .....	57
<b>Dynamics of Pedestrian Crossing Decisions Based on Vehicle Trajectories in Large-Scale Simulated and Real-World Data (11)</b> Jack Terwilliger, Michael Glazer, Henri Schmidt ( <i>Massachusetts Institute of Technology</i> ), Josh Domeyer, Heishiro Toyoda ( <i>Toyota Collaborative Safety Research Center</i> ), Bruce Mehler, Bryan Reimer ( <i>Massachusetts Institute of Technology AgeLab &amp; NE University Transportation Center</i> ), Lex Fridman ( <i>Massachusetts Institute of Technology</i> ) .....	64
<b>Drivers' Assessment of Hazard Perception (12)</b> Daniela Barragan, Yi-Ching Lee ( <i>George Mason University</i> ) .....	71
<b>Withdrawn (13)</b>	
<b>Hacking Nonverbal Communication between Pedestrians and Vehicles in Virtual Reality (14)</b> Henri Schmidt, Jack Terwilliger, Dina AlAdawy, Lex Fridman ( <i>Massachusetts Institute of Technology</i> ) .....	78
<b>Design and Evaluation of Adaptive Collision Avoidance Systems (15)</b> Husam Muslim, Makoto Itoh ( <i>University of Tsukuba – JAPAN</i> ) .....	85
<b>A Survey Study Measuring People's Preferences Towards Automated and Non-Automated Ridesplitting (16)</b> Fangda Zhang, Shannon Roberts ( <i>University of Massachusetts Amherst</i> ), Claudia Goldman ( <i>General Motors Advanced Technical Center Israel – ISRAEL</i> ) .....	92
<b>Dark Personality and Road Crashes: Mediating Role of Driver Vengeance and Violations (17)</b> Nebi Sümer ( <i>Sabancı University – TURKEY</i> ), Bahar Tümer, Uluğhan Ergin, Seda Merve Şahin ( <i>Middle East Technical University – TURKEY</i> ) .....	99
<b>Is Driving Simulation a Viable Method for Examining Drivers' Ethical Choices? An Exploratory Study (18)</b> Anuj Pradhan ( <i>University of Massachusetts Amherst</i> ), Heejin Jeong, Brittany Ross ( <i>University of Michigan</i> ) .....	106
<b>Drivers Fail to Calibrate to Optic Flow Speed Changes During Automated Driving, (19)</b> Callum Mole, Gustav Markkula, Oscar Giles ( <i>University of Leeds – UNITED KINGDOM</i> ), Yuki Okafuji ( <i>Kobe University – JAPAN</i> ), Richard Romano, Natasha Merat, Richard Wilkie ( <i>University of Leeds – UNITED KINGDOM</i> ) .....	113
<b>The Effects of Chewing Gum on the Driving Performance of Emergency Medicine Residents After Overnight Shift Work (20)</b> Maricel Dela Cruz, Muhammad Masood Khalid, Ahmed Mostafa, Jeffrey Foster, Geoffrey Kaump, Rita G. McKeever, & Michael I. Greenberg ( <i>Drexel University</i> ) .....	120

<b>An Investigation of Measuring Driver Anger with Electromyography (21)</b> Christopher Saikalis, John Cliburn, Cedric Portea, Yi-Ching Lee ( <i>George Mason University</i> ) .....	126
<b>Effect of Alert Presentation Mode and Hazard Direction on Driver Takeover from an Autonomous Vehicle (22)</b> Benjamin Cortens, Blair Nonnecke, Lana M. Trick ( <i>University of Guelph – CANADA</i> ) .....	133
<b>Effects of Inaccurate Gaze Behavior on Young Drivers’ Hazard Anticipation (23)</b> Sarah Yahoodik ( <i>Old Dominion University</i> ), Nathan Hatfield ( <i>Design Interactive, Inc.</i> ), Yusuke Yamani ( <i>Old Dominion University</i> ), Siby Samuel ( <i>University of Waterloo – CANADA</i> ) .....	140
<b>Spatially Biased Eye Movements in Older Drivers with Glaucoma and Visual Field Defects (24)</b> David Anderson, Deepta A. Ghate, Sachin Kedar, Matthew Rizzo ( <i>University of Nebraska Medical Center</i> ) .....	147
<b>Comparing Performance when Using a New Style Large Touchscreen Compared to a Traditional In-Vehicle Touchscreen (25)</b> Timothy Brown, Dawn Marshall ( <i>University of Iowa</i> ), Neil Lerner ( <i>Westat</i> ) .....	154
<b>Using a Driving Simulator to Create a Visual Search Test for Drivers with Parkinson’s Disease (26)</b> Hannes Devos ( <i>University of Kansas Medical Center</i> ), Maud Ranchet ( <i>IFSTTAR – FRANCE</i> ), John C. Morgan ( <i>Augusta University</i> ), Abiodun E. Akinwuntan ( <i>University of Kansas Medical Center</i> ) .....	161
<b>Driving Simulator Performance in the Acute Post-Injury Phase Following a Mild Traumatic Brain Injury Among Young Drivers (27)</b> Despina Stavrinou ( <i>University of Alabama at Birmingham</i> ), Ginger Yang ( <i>Nationwide Children’s Hospital</i> ), Thomas Kerwin ( <i>Ohio State University</i> ), Benjamin McManus, Tyler R. Bell ( <i>University of Alabama at Birmingham</i> ), Alison Newton, Bhavna Singichetti ( <i>Nationwide Children’s Hospital</i> ) .....	168
<b>Task Analysis for Measuring Mobility and Recovery Following Right-Sided TKA: Toward Determining Driver Readiness (28)</b> Bethany Lowndes, Emily Frankel, Haley Kampschnieder, Jennifer Merickel, Kevin Garvin, Matthew Rizzo ( <i>University of Nebraska Medical Center</i> ) .....	175
<b>Magnetoencephalography during Simulated Driving: A New Paradigm for Driver Assessment (29)</b> Elizabeth Walshe ( <i>University of Pennsylvania &amp; Children’s Hospital of Philadelphia</i> ), Flaura K. Winston, Chelsea Ward McIntosh ( <i>Children’s Hospital of Philadelphia</i> ), Dan Romer ( <i>University of Pennsylvania</i> ), Timothy Roberts, William Gaetz ( <i>Children’s Hospital of Philadelphia</i> ) .....	182
<b>The Effect of a Concussion on the Hazard Anticipation Ability in Teen Drivers (30)</b> Atefeh Katrahmani, Matthew Romoser ( <i>Western New England University</i> ) .....	189

<b>What You See is What You Get? Correspondence of Video and Interview Data on Secondary Task Engagement While Driving-A Naturalistic Driving Study (31)</b> Maria Kreusslein ( <i>Chemnitz University of Technology – GERMANY</i> ), Katja Schleinitz ( <i>Chemnitz University of Technology, TÜV DEKRA arge tp 21 – GERMANY</i> ), Markus Schumacher ( <i>Federal Highway Research Institute (BASt) – GERMANY</i> ) .....	196
<b>Predicting a Driver's Personality from Daily Driving Behavior (32)</b> Yuichi Ishikawa, Akihiro Kobayashi, Atsunori Minamikawa, Chihiro Ono ( <i>KDDI Research, Inc. – JAPAN</i> ) .....	203
<b>German Validation of the Prosocial and Aggressive Driving Inventory (PADI) (33)</b> Tanja Stoll, Mirjam Lanzer, Martin Baumann ( <i>Ulm University – GERMANY</i> ) .....	210
<b>Using Markov Chains to Understand the Sequence of Drivers' Gaze Transitions During Lane-Changes in Automated Driving (34)</b> Rafael Gonçalves, Tyron Louw, Ruth Madigan, Natasha Merat ( <i>University of Leeds – UNITED KINGDOM</i> ) .....	217
<b>The Heterogeneity Principle (35)</b> Ron Knipling ( <i>Safety for the Long Haul, Inc.</i> ), Anders E. af Wählberg ( <i>Cranfield University – UNITED KINGDOM</i> ) .....	224
<b>Where You Look During Automation Influences Where You Steer After Take-Over (36)</b> Callum Mole, Oscar Giles, Natasha Merat, Richard Romano, Gustav Markkula, Richard Wilkie ( <i>University of Leeds – United Kingdom</i> ) .....	231
<b>Mapping Visual Fields in a Panoramic Driving Simulator Under Different Task Loads in Patients with Glaucoma (37)</b> Deepta Ghate, David Anderson, Jideofor Ndulue, Robin High, Lynette Smith, Matthew Rizzo ( <i>University of Nebraska Medical Center</i> ) .....	238
<b>How Long Does It Take to Relax? Observation of Driver Behavior During Real-World Conditionally Automated Driving (38)</b> Kamil Omozik ( <i>BMW Group, Technical University of Munich – GERMANY</i> ), Yucheng Yang ( <i>Technical University of Munich – GERMANY</i> ), Isabella Kuntermann, Sebastian Hergeth ( <i>BMW Group – GERMANY</i> ), Klaus Bengler ( <i>Technical University of Munich – GERMANY</i> ) .....	245
<b>Investigating Pedestrians' Crossing Behaviour During Car Deceleration Using Wireless Head Mounted Display: An Application Towards the Evaluation of eHMI of Automated Vehicles (39)</b> Yee Mun Lee, Jim Uttley, Albert Solernou, Oscar Giles, Richard Romano, Gustav Markkula, Natasha Merat ( <i>University of Leeds – UNITED KINGDOM</i> ) .....	252
<b>Withdrawn (40)</b>	
<b>Driving Simulator Assessment of Fitness-to-Drive Following Traumatic Brain Injury (41)</b> Benjamin McManus, Tyler R. Bell, Despina Stavrinou ( <i>University of Alabama at Birmingham</i> ) .....	259

<b>The Effect of Turn Signal Onset on Lateral Performance Measures When Overtaking a Lead Vehicle - Using Naturalistic Driving Environment (42)</b> Brian T.W. Lin ( <i>University of Michigan Transportation Research Institute</i> ), Shan Bao ( <i>University of Michigan Transportation Research Institute, University of Michigan-Dearborn</i> ) .....	266
<b>Effects of Voluntary Handheld vs. Speech-Based Text Entry on Driving Performance in (Un)Predictable Critical Situations (43)</b> Katja Schleinitz ( <i>TU Chemnitz, TÜV   DEKRA arge tp 21 – GERMANY</i> ), Tibor Petzoldt ( <i>TU Dresden – GERMANY</i> ) .....	273
<b>Improving Driver Engagement During L2 Automation: A Pilot Study (44)</b> Anuj Pradhan ( <i>University of Massachusetts Amherst</i> ), Jacob Crossman ( <i>Soar Technology</i> ), Adam Sypniewski ( <i>Deepgram</i> ) .....	280
<b>Speed Anticipation Characteristic with Optical Flow for Driver Behavior Assessment of Older Drivers (45)</b> Hiroshi Yoshitake, Michinobu Nakanishi, & Motoki Shino ( <i>The University of Tokyo – JAPAN</i> ) .....	287
<b>Age and Secondary Task Engagement in Relation to Safe/Unsafe Driving Behavior and Crash/Non-Crash Events (46)</b> Jose Calvo, Carryl Baldwin ( <i>George Mason University</i> ), Brian Philips ( <i>US DOT Federal Highway Administration Office of Safety R&amp;D</i> ) .....	294
<b>Eye Contact between Pedestrians and Drivers (47)</b> Dina AlAdawy, Michael Glazer, Jack Terwilliger, Henri Schmidt ( <i>Massachusetts Institute of Technology</i> ), Josh Domeyer ( <i>Toyota Collaborative Safety Research Center</i> ), Bruce Mehler, Bryan Reimer ( <i>Massachusetts Institute of Technology AgeLab &amp; NE University Transportation Center</i> ), Lex Fridman ( <i>Massachusetts Institute of Technology</i> ) .....	301
<b>Posing Questions and Policy Suggestions: Autonomous Vehicles &amp; Climate Change (48)</b> Melody Barnard, Robert Hitt, Michael Norton, Yi-Ching Lee ( <i>George Mason University</i> ) .....	308
<b>A Methodical Approach to Examine Conflicts in Context of Driver - Autonomous Vehicle - Interaction (49)</b> Marcel Woide, Dina Stiegemeier, Martin Baumann ( <i>Ulm University – GERMANY</i> ) .....	314
<b>Driving with Foresight - Evaluating the Effect of Cognitive Distraction and Experience on Anticipating Events in Traffic (50)</b> Kristin Mühl ( <i>Ulm University – GERMANY</i> ), Valentin Koob ( <i>Technische Universität Berlin– GERMANY</i> ), Tanja Stoll, Martin Baumann ( <i>Ulm University – GERMANY</i> ) .....	321
<b>Driver Behavior in Overtaking Accidents as a Function of Driver Age, Road Capacity and Vehicle Speed: A Case Study in Iraq (51)</b> Husam Muslim, Makoto Itoh ( <i>University of Tsukuba – JAPAN</i> ) .....	328
<b>Are Driving Simulators Suitable to Measure the Driving Competence of Elderly Drivers? (52)</b> Ramona Kenntner-Mabiala, C. Maag, Yvonne Kaussner, S. Hoffmann ( <i>WIVW GmbH – GERMANY</i> ), Markus Schumacher ( <i>Federal Highway Research Institute – GERMANY</i> ) .....	335

<b>Can Virtual Reality Headsets be Used to Measure Accurately Drivers' Anticipatory Behaviors? (53)</b> Ganesh Pai Mangalore, Yalda Ebadi ( <i>University of Massachusetts Amherst</i> ), Siby Samuel ( <i>University of Waterloo – CANADA</i> ), Michael Knodler, Donald Fisher ( <i>University of Massachusetts Amherst</i> ) .....	342
<b>Driving Simulation as Virtual Reality Exposure Therapy to Rehabilitate Patients with Driving Fear After Traffic Accidents (54)</b> Stefanie Schoch, Yvonne Kaussner ( <i>Würzburg Institute of Traffic Sciences (WIVW) – GERMANY</i> ), A.M. Kuraszkiwicz ( <i>University of Würzburg – GERMANY</i> ), S. Hoffmann ( <i>Würzburg Institute of Traffic Sciences (WIVW) – GERMANY</i> ), P. Markel, R. Baur-Streubel, P. Pauli ( <i>University of Würzburg – GERMANY</i> ) ....	349
<b>The Dynamic Merge: Using Traffic Volume Based Signing to Improve Workzone Throughput (55)</b> Starla Weaver ( <i>Leidos</i> ), Michelle Arnold ( <i>US DOT Federal Highway Administration</i> ), Tracy Gonzalez, Stacy Balk ( <i>Leidos</i> ) .....	356
<b>How Demanding is "Just Driving?" A Cognitive Workload - Psychophysiological Reference Evaluation (56)</b> Bruce Mehler, Bryan Reimer ( <i>Massachusetts Institute of Technology AgeLab &amp; NE University Transportation Center</i> ) .....	363
<b>The Conspicuity Benefits of Bicycle Taillights in Daylight (57)</b> Darlene Edewaard, Ellen C. Szubski, Richard A. Tyrrell, & Andrew T. Duchowski ( <i>Clemson University</i> ) .....	370
<b>Associations Between Cognitive Distortions in Moral Reasoning and Self-Reported Traffic Violations and Crashes for Different Road User Groups (58)</b> Erik Roelofs ( <i>Cito – the NETHERLANDS</i> ), Pierro Hirsch ( <i>Virage Simulation – CANADA</i> ), Jan Vissers ( <i>RoyalhaskoningDHV – The Netherlands</i> ) .....	377
<b>Comparison of Virtual Driving Test Performance and On-Road Examination for Licensure Performance: A Replication Study (59)</b> Elizabeth Walshe ( <i>University of Pennsylvania &amp; Children's Hospital of Philadelphia</i> ), Natalie Oppenheimer ( <i>Children's Hospital of Philadelphia</i> ), Venk Kandadai ( <i>Diagnostic Driving Inc.</i> ), Flaura Winston ( <i>Children's Hospital of Philadelphia</i> ) .....	384
<b>Consumer Confusion with Levels of Vehicle Automation (60)</b> Bobbie Seppelt, Bryan Reimer, Luca Russo, Bruce Mehler ( <i>Massachusetts Institute of Technology AgeLab &amp; NE University Transportation Center</i> ), Jake Fisher, David Friedman ( <i>Consumer Reports</i> ) .....	391
<b>Learning and Development of Mental Models during Interactions with Driving Automation: A Simulator Study, (61)</b> Yannick Forster ( <i>BMW Group, Chemnitz University of Technology – GERMANY</i> ), Sebastian Hergeth, Frederik Naujoks ( <i>BMW Group – GERMANY</i> ), Matthias Beggiano, Josef F. Krems ( <i>Chemnitz University of Technology – GERMANY</i> ), Andreas Keinath ( <i>BMW Group – GERMANY</i> ) .....	398
<b>Understanding Lane-Keeping Assist: Does Control Intervention Enhance Perceived Capability? (62)</b> John Sullivan, Michael Flannagan ( <i>University of Michigan Transportation Research Institute</i> ) .....	405

<b>Consumer Comfort with Vehicle Automation: Changes Over Time (63)</b> Chaiwoo Lee, Bobbie Seppelt, Hillary Abraham, Bryan Reimer, Bruce Mehler, Joseph Coughlin ( <i>Massachusetts Institute of Technology AgeLab &amp; NE University Transportation Center</i> ) .....	412
<b>Autonomous Vehicle Interactions with Other Road Users: Conflicts and Resolutions (64)</b> Michael Heymann ( <i>Israel Institute of Technology – ISRAEL</i> ), Asaf Degani ( <i>General Motors R&amp;D Center – ISRAEL</i> ) .....	419
<b>Cognitive Load During Automation Affects Gaze Behaviours and Transitions to Manual Steering Control (65)</b> Richard Wilkie, Callum Mole, Oscar Giles, Natasha Merat, Richard Romano, Gustav Makkula ( <i>University of Leeds – UNITED KINGDOM</i> ) .....	426
